Slimline Bifold Door
Where space opens, and life flows.

Introducing the Stellar Aluminium Slimline Bifold Door

A bifold door offers something transformative. When the sashes fold and slide aside, they create a truly uninterrupted connection between your home and the outdoors — a full-width opening that invites light, air and life to flow effortlessly through your space.

The Stellar Aluminium Slimline Bifold Door elevates this experience with ultra-slim aluminium frames that maximise glazing and maintain a bright, open feel even when closed. When opened, the panels fold neatly together to create a wide panoramic opening.

Smooth performance sits behind the elegant design. Precision hinges and stainless-steel tracks allow the panels to glide effortlessly, whether opening a single section or the entire door.

With open-in or open-out options and up to seven sashes, the door can be configured to suit your home and lifestyle.

Expand your living space with the Stellar Aluminium Slimline Bifold Door.

Key features:

- Low threshold options for seamless indoor-outdoor transitions
- Max sash size: 1200mm x 2400mm
- Overall maximum width: up to 6500mm
- Open-in or open-out configurations
- Up to seven sashes for versatile design possibilities
- Multipoint locking for enhanced security
- Meets Part L thermal efficiency standards with standard double glazing

Hardware that enhances every fold and glide

In a bifold door, hardware defines both performance and feel. Every component of the Stellar Aluminium Slimline Bifold Door has been carefully selected and tested to deliver strength, durability and smooth operation. Precision hinges and stainless-steel tracks work together to ensure panels fold and glide effortlessly, providing stability when closed and fluid movement when open.

Yale locking hardware is fitted as standard, delivering exceptional security. Doors fitted with a Yale 3-star cylinder and meeting PAS 24 requirements benefit from the Yale Lifetime Total Trust Guarantee*. And a choice of handle and hardware finishes allows you to personalise the finer door details, enhancing both the appearance and everyday usability of the door.

A colour collection designed to inspire

Every Stellar Aluminium Slimline Bifold Door is finished with a premium polyester powder coating for long-lasting durability and colour retention.

Choose from a wide range of standard colours, dual-colour options for interior and exterior coordination, or any RAL shade for a fully personalised finish.

All coatings meet the QUALICOAT Seaside specification, the most robust powder-coating standard available in the UK and Ireland, ensuring lasting performance even in demanding environments.

The guarantees that give you peace of mind

Every Stellar Aluminium product is manufactured to exacting standards and tested to ensure outstanding quality and performance. To reflect that confidence, every Slimline Bifold Door is supported by comprehensive guarantees.

Profile guarantee

Ten-year optical and mechanical performance guarantee.

Paint finish guarantee

25-year guarantee against peeling, corrosion, chalking or fading.*

*When installed more than 5km from a coastline.

Security guarantee

Doors fitted with the Yale 3-star cylinder and meeting PAS 24 requirements are covered by the Yale Lifetime Total Trust Guarantee.
